You're a being of the darkest descent
You don't belong anywhere
You're always hungry, but never content
All of your sins, you could never bear
Now you're feeling good
But you're really dead
And you're wearing make up and perfume
In the gallows you were hung
But now I see you walk instead

Razor eater
He'll never ever die
Razor eater
He'll never ever die

Well you kept your secrets
And locked them up
Then drained their blood
As you read your books
See the show and drink from your cup
And then hang your darlings
From the hooks
Slice them up, no one will ever know
But still you smell that smell
And now you're dead since long ago
You better burn in hell

Razor eater
He will never die
Razor eater
He will never die

Razor eater
Razor eater

Rise Up
Rise Up
You know I have seen the dark side
But evil is not my friend
And you know I'll die trying
Keep on trying to the end

You know I'm superstitious
But the devil never pays
My victory is delicious
When you fall, fall from grace

My holy sacrifice
It's time for me to rise
The demons chained me down
It's time to rise
Rise up
Rise up
Rise
Rise up

I have had my share of fighting
But I still could fight some more
Now I can see the horizon
Much better than before
What I've been giving all these years
My blood, my sweat, my tears
I'll carry on forever

My holy sacrifice
It's time for me to rise
The demon's chained me down
It's time to rise
Rise up
Rise up
Rise up
No

My holy sacrifice
It's time for me to rise
The demon's chained me down
What I've been giving all these years
My blood, sweat and tears
I'll carry on forever
It's time to rise
Rise up

Now we're on the journey
Back into darker times
Can you see the man made mountains
They were built for those divine
We walk into the twilight
In the land of the dead

When the gods walked the earth
In the city of a thousand gates
They were kings from birth
That was their given fate

In the valley of kings
Where the echoes still ring
On the hot dessert winds
In the valley of kings

Their souls that are immortal
Within their after life
Their soaring through the portal
To be eternal light
They were ruling without mercy
Reigning life on earth

When the gods walked the earth
In the city of a thousand gates
They were kings from birth
That was their given fate

In the valley of kings
Where the echoes still ring
On the hot dessert winds
In the valley of kings

When the gods walked the earth
In the city of a thousand gates
They were kings from birth
That was their given fate

In the valley of kings
Where the echoes still ring
On the hot dessert winds
In the valley of kings

SHIP OF FOOLS

シップ・オブ・フールズ

All music composed and arranged by Yngwie J. Malmsteen All lyrics and melodies written by Yngwie J. Malmsteen

When the rats are bailing out
And you are just signing on
Then you turned and walked away
There is no love lost here, my friend
But you have made a great mistake
You ate the hook, the sink and bait
Now you can't get out
It's much too late

The ship of fools keep sailing on
The ship of fools keep sailing on
And on and on and on

But I can be merciless for sure
And you'll sail for many moons
I can't believe you lost your mind
I'll watch you falling down, again

You have been living in a dream
And I can hear the same old theme
But nothing's ever what it seems

The ship of fools keep sailing on
The ship of fools keep sailing on
The ship of fools keep sailing on
And on and on and on

The truth is always hard to face
Especially when you are in that place,
Like the ship of fools

The ship of fools keep sailing on
The ship of fools keep sailing on
The ship of fools keep sailing on
And on and on and on

The ship of fools keep sailing on
The ship of fools keep sailing on
The ship of fools keep sailing on
And on and on and on

Living large, living free
Living the life that dreams are made of
Dying proud, dying free
Dying the death of heroes

But what you've done now
Makes me want to cry
You keep on pushing
Well now you've pushed too far
You must die now
You must die now

Once we were free
Living in perfect harmony
It's much too late
And now there's no turning back

Attack
Attack
Attack

Out of the blue
Out of the sky
The world comes crashing down
Now it's out of true
We've been blown sky high
And the king has lost his crown

We must be fearless
And be relentless
Kill these insects
Show no mercy
You must die now
You must die now

Once we were free
Living in perfect harmony
It's much too late
And now there's no turning back

Alright
Alright
You sacrificed
And worked all your life
But now you're
Bleeding, crying all for nothing
Nothing
You waiting for that day
And you're always praying
For the gates
To finally open, open

Into my stronghold
You will never take my
Stronghold
Yeah

Well you can bring
And army's might
But I will always fight
Until the end, the end
You can never break
Through my walls
And I'll never fall
What's mine I will defend
Defend

Into my stronghold
You will never take my
Stronghold
And I will show you
No mercy

Into my stronghold
You will never take my
Stronghold
Yeah

Into my stronghold
You will never take my
Stronghold

Well don't believe
What you have heard
Just don't believe
A single word
Not a word

Into my stronghold
You will never take my stronghold
Yeah,
Never, Go

Ever since that day
I met you
Well I just knew
You must be mad
But that's okay
Cause I've been thinking
And I've had worse
It ain't that bad
But now it has reached
Another level
A lesser man would be scared
Live as you preach
And not as the devil
We're all the same
Breathing air

Mad
Mad
Mad dog
Mad, mad dog
Mad dog
Mad, mad dog

Now it's too late
Much too late
To fix your problem
Your brain is dead
You should have tried
To set it straight
Now you missed that boat
And that's what I always said

You're mad
Mad
Mad dog
Mad, mad dog
Mad dog

Mad
Mad, mad dog
Mad dog, mad dog
Yeah
I'm gonna put you down, down

In the name of god
We didn't know for sure
That evil is right outside our door
And now all the bad and ugly
Showing their faces more
So now we have got to work it out
And think with precision
Make sure we make the right decision

In the name of god
In the name of god
In the name of god

Together we're standing tall
Together we will never fall
Together we're living free

And the truth is for all to see
But since we've all been blinded
Blinded by evil
Now is the time to stand and fight
In the name of god
In the name of god
In the name of god

In the name of god
In the name of god
In the name of god
In the name of god

Just let it loose
Let's paint the town
Now we sure have nothing to lose
Feel the groove, wow
In the night, feel the groove
Come on baby, let's get it tight

Alright
Freedom isn't free
No, no
Get it tight, oh

Alright

Valhalla,
Valhalla
Pick up your sword
Pick up your shield
And get your ass on to the battle field
This hell on earth
That you call your life
We'll snuff it out
And you're gonna die

We come from the north
We come from the ice
We live dangerously
And very short lives
We fight day by day
Sailing the seas
We're natural born slayers
We live by the sword
And die by the sword
We're never afraid
And to drink with the gods
To be singing their songs
I raise my cup in valhalla
To feast in their halls
And laugh with them all
I raise my cup in valhalla

Valhalla
You live by the sword
You die by the sword

The hammer of Thor
Beating you down
The thunder crashing
Through your door

With the gods by our side
We follow the stars
As we're sailing into
This holy war

We come from the north
We come from the ice
We live dangerously
And very short lives
We fight day by day
Sailing the seas
We're natural born slayers

We live by the sword
And die by the sword
We're never afraid
And to drink with the gods
To be singing their songs
I raise my cup in valhalla
To feast in their halls
And laugh with them all
I raise my cup in valhalla

Valhalla
We live by the sword
And die by the sword

TOUCH THE SKY

Can you remember all the times
We were rehearsing all the lines
Way too high
But still we'd try
We were loosing sleep
But for the cause
Rocking out without a pause
Way too high
Way too high

Then it seemed so cool
But it wasn't true
And what I was told
There were no lies
And now I won't die until I'm old

We were way too high
Trying to reach up and touch the sky
Touch the sky
We were way too high
Trying to reach up and touch the sky

But the end would justify
All the lost time that went by
Do or die
Way too high
Well, I can't believe it's true
And all the things that we would do
Way too high
Way too high

Then it seemed so cool
But it wasn't true
And what I was told
There were no lies
And now I won't die until I'm old

We were way too high
Trying to reach up and touch the sky
Touch the sky
We were way too high
Trying to reach up and touch the sky

All I was told
There were no lies
I won't die till I'm old

Trying to reach up and touch the sky
We were way too high
Trying to reach up and touch the sky
We were way too high
Trying to reach up and touch the sky
We were way too high

I can't believe you're even trying this
And the fact that you don't know what my power is
On the battle field all the angels will fall
And you can't hide behind your crumbling walls

Evil dreams they try to pull you in
But now's the time to pay for all your sins
When it's even way too late to repent
So maybe your death is just heaven sent

No shackles can hold me down
You can never understand
You'll never take my crown
And all the power in my hands
Forever I shall stay this way
And you'll never take what's mine away

I just love when vengeance tastes so sweet
I just love when you must taste defeat
Now you know you must die by my blade
Soon enough your soul will fade away

It makes me laugh you even took your turn
You can't be serious, won't you ever learn
I'm the man that you can never take out
You've must forgotten what it's all about

Threw caution to the wind
Are you really all that blind
Committing ancient sins
Are you really that behind
We all have a cross to bear
You can seek but never find
Can't you feel the sadness there
Did you loose your mind
Now it seems that way to me
Did you commit those crimes
Open up your eyes and see
Are you really all so blind
No wonder you were left behind again

No shackles can hold me down
You can never understand
You'll never take my crown
And all the power in my hands
Forever I shall stay this way
And you'll never take what's mine away
Did you loose your mind
Now it seems that way to me
Did you commit those crimes
Open up your eyes and to see
Are you really all so blind
Will it ever set me free
No wonder you were left behind again

They always said it couldn't be done
There's not a man, living under the sun
To pull it off now, baby
Listen I've got news for you

But the way I see it
There's no more illusions
And I'm going forward now

I'll never give in
I'm nobody's fool

Look at you know, you're so pathetic
I don't know how, you just don't get it
Don't try to be wise
You could use some advice

But the way I see it
There's no more illusions
And I'm going forward now

I'll never give in
I'm nobody's fool

I'll never give in
I'm nobody's fool

I'll never give in
I'm nobody's fool

I'll never give in
Cause I'm nobody's fool
